Skills & Strengths: User Experience Design (UED), Wireframing, Information Architecture, Prototyping, Usability Testing, User Research, Project Planning, Communication, Storytelling, Collaboration, Ownership

Work Experience

August 2025 - Present

Trinet Global Technology Centre, Hyderabad

UX Designer

- Designed new features and improved existing workflows across Professional Employer Organization (PEO) and Administrative Services Organization (ASO) platforms.
- Worked on the end-to-end design process, from understanding requirements and exploring ideas to creating user flows, wireframes, prototypes, and final designs.
- Improved existing interfaces by updating them to the latest design system, ensuring consistency across the platform.
- Collaborated with cross-functional teams, including Product Managers, UX Writers, Developers, and Legal, to align design decisions with business goals, user needs, and compliance requirements.

August 2022 - July 2025

Divami Design Labs, Hyderabad

UX Designer

- Worked on 6+ B2B SaaS projects across industries including Logistics, Fintech, Network Security, Construction Tech, and Geospatial Technology.
- Handled the end-to-end UX design process, from understanding business requirements and conducting user research to creating user flows, wireframes, prototypes, and high-fidelity designs.
- Managed multiple projects simultaneously, collaborating directly with clients, product managers, and developers to present solutions, gather feedback, and improve user experiences.

Project Work

- **TriNet – AX AI Assistant:** Designed the mobile experience for an AI-powered assistant that helps employees complete everyday HR tasks. Created conversational flows and reusable interaction patterns for user inputs, guided actions, confirmations, and error handling.
- **Shipthis – Freight Forwarding Software:** Optimized the rate search process, resulting in a 35% faster quote creation process and improved user efficiency. Enhanced the overall user experience by simplifying complex workflows.
- **HC Robotics - Warehouse Automation & Robotics:** Designed a web-based 3D viewer for panoramic imagery and point cloud data, enabling seamless navigation and precise measurements. Streamlined 20+ robotic control features into an intuitive toolbar for enhanced usability, enhancing operational efficiency.

Education

2018 - 2022

Nirma University, Ahmedabad

CGPA: 8.2/10

Bachelor of Design - Product Design

Awards and Certificates

- Star Of The Month - Trinet (2026)
- Activate Impetus - Divami Design Labs (2023)
- UX Design Google Certification (2022)
